Hi Sandra,

Was there any zero (0) flow during the period below? If so, how many? This information would help me apply the Pueblo of Isleta WQS to this facility.

Thank you,

Tung Nguyen

Subject: Albuquerque 4Q3

Tung,

According to the Dflow program (Basins), the 4Q3 for Albuquerque WWTP is 1.43E+02 (143 cfs)

The attached data provides further information as to what was used for the calculation.

The period of data is from 2006-2016

USGS – 08330000 Rio Grande at Albuquerque, NM
